

Birth Control for Wisconsin Teens

Stop unplanned pregnancies and prevent sexually transmitted diseases (STDs)!

Wisconsin has a **free** and **private** program for teens who want to prevent unplanned pregnancies and STDs.

This program will pay for certain family planning services such as:

- Birth control services and supplies
- Visits to your doctor or family planning clinic
- Tests and treatment for STDs
- Pap and other lab tests

And more!

Last year, in the United States, there were about 1 million teens who became pregnant.

Avoid pregnancy and STDs!

It is easy to apply today. Ask your doctor or family planning clinic for help, call or visit your local county or tribal agency or you can apply online at access.wi.gov.

If you have questions or need help finding a doctor or services, call 1-800-362-3002. Go to badgercareplus.org for more information.

All of your information will be kept private.
